

Dashboards

Your data and stats in one convenient location.

Why you need Quick Analysis

All your information in one place

Customise your own dashboard to show all relevant information from your sources in one location.

Mobile respondents

Our customised dashboards work on all your devices. You can access them on your phone, tablet or computer.

Dedicated technical project leader

You will have an allocated contact person here at Netigate who can help you with recommendations and customisations.

Cloud-based

You can access your dashboards directly from your browser. Unique URLs also make them easy to share with others,

Custom-made dashboards

Choose which key results to show, and create graphs and flows according to your needs.

Real-time results

Choose which key results to show, and create View your results in real time, with filters set to suit your immediate requirements, e.g. specific time periods, departments, corporate levels, etc

Fixed, filtered results

Do you prefer a non-interactive dashboard? No problem. Predetermine your time period and lock the real time information flow without any disturbance.

Security

Multiple security measurements guarantee that your information is safe. Protection through IP Lock, password, and URL key is included.
